EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Claims

In claim 1: on line 4, after "image", -- of an eye -- has been inserted; and on line 8, "an" has been replaced with -- the --. Without this change, the claim would be indefinite in that there is no link between lines 3 and 4, and lines 8 and 9 of the claim; and "the eye" recited on line 8 has no antecedent basis.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: References of record, taken singly or in combination, fail to teach or fairly suggest the device for measuring the iridocorneal angle as now presented in the sole independent claim 1 in which such an angle is obtained from an analysis of contrast differences in an image of an eye, such an analysis being carried out by an image processing means connected to an image capture means, with the image processing means arranged to receive the image of the eye captured by the image capture means, wherein the contrast in question is produced by a light source.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
